

# 195 locations... and we are still adding MORE!

**20 NEW Locations as of November 1st 2009 & 20 MORE coming Summer 2010!**

We were given the opportunity to purchase a competitors enclosed outdoor racks upon the discontinuation of their publication. This has provided us with the exciting opportunity of expanding our distribution across the Rim Country and White Mountains.

The first 20 new locations will be in the White Mountains, as these locations were previously put in place by our competitor.

We will then, over the course of the next few months, place the additional 20 racks throughout the Rim Country region.

**For a total of 40+ new locations in place by the Summer of 2010.**

Also, keep a look out in your area for the red enclosed racks as we will be removing older wire racks and upgrading them to the newly acquired enclosed racks. The entire process will take a few months to put into place, due to the fact that some of the racks are weathered and will be given a face lift before they are placed back in circulation. See our list of current locations below:

#### **Rim Country locations (59):**
